Product launch information safety crocodile clip SAK 9230

Stuttgart, August 2024

Dear Sir or Madam,

It is our goal to always offer you innovative and high-quality products.
We are therefore very pleased to inform you of this **significant change**.

We are excited to introduce you to the innovative **SAK 9230 safety crocodile clip**.
It is the result of continuous technological development in our company and replaces the proven safety crocodile clips **SAK 6674** and **SAK 6675**.

In addition to its innovative spring technology without a torsion spring,
the SAK 9230 also impresses through its modular structure.
It can be plugged into standard 4 mm safety measuring leads as a stand-alone terminal or
can be purchased ready-made with a cable.

The **most important features** of the SAK 9230 at a glance:

- New spring technology without torsion spring
- Increased clamping area
- Modular design for flexible applications
- Can be used as a stand-alone terminal or ready-made with a cable
- Attractive design
- Optimized ergonomics and haptics for comfortable handling
- Reliable and long-lasting function
- Possibility of mounting on a mounting plate; can also be arranged in a row
- Reduction of components for a sustainable use of resources

Experience the outstanding features for yourself and test the SAK 9230 extensively in your company. We would be happy to **provide you with samples**.

Detailed information about the technical specifications, areas of application and special features of the SAK 9230 can be found in the data sheet attached to this letter and on our website at **www.schuetzinger.de**.

If you have any questions, e.g. about switching to the SAK 9230, please feel free to contact our sales team.

You can reach us by phone at **+49 711 – 715460** or by email at **sales@schuetzinger.de**.

Your specific requirements cannot be covered with standard products from testing and measurement technology?

No problem! We would be happy to develop customized solutions together with you, that meet your individual needs.

Our team of experts looks forward to meeting you and will be happy to advise you!

Technological progress sometimes requires understanding; we thank you for that.

It will be our pleasure to provide you with innovative solutions and to go into a more successful future together.

Kind regards from Stuttgart

Bernhard Schützinger
